

## Fatal industrial accident at Aurubis Hamburg

**Hamburg, July 4, 2024** — It is with deep regret that Aurubis confirms the occurrence of a fatal industrial accident. During the loading of scaffolding parts near the Continuous Casting Plant at the Hamburg Plant, a worker employed by a contractor incurred a serious head wound today at around 10:15 a.m. Rescue services were immediately mobilized. The Aurubis Plant Fire Department arrived at the site almost immediately and rendered the person first aid. The injured party was transported by ambulance to a close hospital where he later succumbed to his injuries. Multiple bystanders who witnessed the incident suffered a shock and are currently receiving psychological counseling.

"We are deeply saddened by this tragic accident and the resulting fatality," Aurubis Executive Board member and Director of Industrial Relations Markus Kramer emphasized. "We would like to express our deepest condolences to the relatives of the deceased and mourn this terrible loss."

The responsible authorities are currently investigating the accident. Aurubis is cooperating fully with the responsible authorities to clarify the circumstances and causes of the accident.

The accident was not linked to the large-scale shutdown currently underway at the site.

More information will be provided as soon as new findings are available.

### **Aurubis - Metals for Progress**

*Aurubis AG is a leading global provider of non-ferrous metals and one of the largest copper recyclers worldwide. The company processes complex metal concentrates, scrap metals, organic and inorganic metal-bearing recycling materials, and industrial residues into metals of the highest quality. Aurubis produces more than 1 million tons of copper cathodes annually, and from them a variety of products such as wire rod, continuous cast shapes, profiles, and flat rolled products made of copper and copper alloys. Aurubis produces a number of other metals as well, including precious metals, selenium, lead, nickel, tin and zinc. The portfolio also includes additional products such as sulfuric acid and iron silicate.*

*Sustainability is a fundamental part of the Aurubis strategy. "Aurubis responsibly transforms raw materials into value" — following this maxim, the company integrates sustainable conduct and business activities into the corporate culture. This involves a careful approach to natural resources, responsible social and ecological conduct in everyday business, and sensible, healthy growth.*

*Aurubis has around 7,200 employees, production sites in Europe and the US, and an extensive distribution network around the world.*

*Aurubis shares are part of the Prime Standard Segment of the German Stock Exchange and are listed in the MDAX, the Global Challenges Index (GCX), and the STOXX Europe 600.*
